

**The Electric Magnetic Heating Element, 110 volt  
 1ABB580A110V ●**

Simply put, this is the SMARTest chafing dish heater ever made. The electric heater uses magnets to attach to the bottom of a standard chafing dish. This model is 110 volts. Since it only pulls 580 watts, you can run 4 heaters on a standard electrical circuit. There is no re-wiring of the buffet required. You will save Green while you go Green! Also available in 220/230/240 volts, 1ABB580A230V.

**Specifications**

Carton quantity	1
Dimensions (L x W x H)	9.6" x 9.6" x 2.75"
Weight	3 lbs.

**Features**

- |                        |   |
|------------------------|---|
| Cost Effective         | — Saves over \$5500.00 during product's lifetime. |
