

**The 110volt Omelet Induction Stand Set is smart!**

**1AIC1414SET110V** ●

The Smart Omelet Induction cooker uses 1000 watts of power, 9.10 Amps. It is designed so that two units can be used on a standard 110 volt, 20 amp circuit. This allows you to set up an action station any place on the property. No need for special wiring. This makes the Smart Omelet Induction cooker the **Greenest** induction cooking system in the world.

Most Induction cookers require between 1800 and 2400 watts of power, limiting you to one cooker per 20 amp circuit.

(see 1AIC1414SET230V for the 230 volt model)

**Specifications**

Carton quantity	1
Dimensions (L x W x H)	15" x 15" x 5"
Weight	9 lbs.

**Features**

- GREEN — Eliminates fuel use, can waste & ozone damage.
- Power Requirements — Single phase, 110V, 50/60 Hz
- Replacement parts and service — Protecting your investment for years to come.
- Safe — No flames, no fumes, no smell.
- Stainless Steel — Withstands high levels of heat without damage.
- Stainless Steel construction — Food safe and easy to clean.
- Stainless Steel construction — Provides durability and strength.
