

DOMINO Quad Cold Display w/ Acrylic Domed Covers and food safe coated aluminum trays

1A19431NSF ●

The DOMINO Quad Cold Display with Acrylic Domed Covers includes four individual displays. They can be used in conjunction with one another as a display set or they can be used individually. This display includes four stands, eight ice packs, four ice pack pans, two full size food safe coated aluminum trays, four 1/2 size food safe aluminum trays and two acrylic domed covers. The acrylic domed covers open to 90° for serving versatility. All DOMINO components share legs so you can weave together pieces to build it your way. Simply put, DOMINO makes it fun again!

Mix it, match it, change it; build it high or keep it low. It is simply the most versatile, easy to use system ever made.

All components can be connected to each other. Shared legs slide into each other quickly and easily. Add a leg for extra height, remove a leg for a lower profile. You are only limited by your imagination.

Build a beautiful breakfast buffet this morning. Add some different components and you have a lunch buffet. Add a couple more components and you're ready for dinner. What would you like to see? Decide and make it so. No matter what, your choice will be **SMART!**
