

The Domino Oatmeal or Gravy / Soup Station Stand comes with a Hinged Lid Soup bucket and induction warmer!

1A194075CLDSET ●

Domino is a completely new concept in modular buffet systems. The Domino Oatmeal or Gravy / Soup Station Stand SET comes with a hinged lid soup bucket that holds 4.4 qt/4.2 ltr & the induction warmer is included. All Domino components share legs so you can weave together pieces to build it your way. Simply put, Domino makes it fun again!

The Domino system connects like Legos, but is made of solid stainless steel. Mix it, match it, change it; build it high or keep it low. It is simply the most versatile, easy to use system ever made.

All components can be connected to each other. Shared legs simply slide into each other quickly and easily. Add a leg for extra height, remove a leg for a lower profile. You are only limited by your imagination.

Build a beautiful breakfast buffet this morning. Add some different components and you have a lunch buffet. Add a couple more components and you're ready for dinner. What would you like to see? Decide and make it so. No matter what, your choice will be **SMART!**

Going green made easy: When our induction warming system is combined with our chafers and urns, you only need 1.82 amps of power per chafers, soup or coffee urn. This makes our system the greenest in the world for heating your buffet, and enables you to run as many as ten induction warmers on a single 20 amp circuit. Having such a low power requirement will allow you to easily set up buffets in meeting rooms, or on the fly without fear of tripping breakers.

Induction for Dummies: Your staff turns it on and walks away.

- **Adjustable automatic shut off controller**
- **Auto temperature control (preset 170? - 180?)**
- **Auto timer for 1-9 hours (preset at 6 hours)**
- **No fire hazards**
- **Consistent temperatures**
- **Safe and secure**
- **Heats chafers, not the room**

INDUCTION WARMER (model 1AIW110V4) INCLUDED

Specifications

Carton quantity	1
Dimensions (L x W x H)	14" x 14" x 13"
Weight	26 lbs.

Features

- Clad bottom — Eliminates hot spots that cause food to stick and burn.
- Cost Effective — Saves over \$5500.00 during product's lifetime.
- Efficient — Uses 66.29% less energy than most competitors. Holds temperature at 200 watts with Smart Chafers.
- Electric Heat — Holds an even, constant heat.
- Elegantly Durable — Designed from heavy gauged polished stainless.
- GREEN — Eliminates fuel use, can waste & ozone damage.
- Low Wattage — 200 Watts, 1.82 Amps = 10 Smart Chafers
- Power Requirements — Single phase, 110V, 50/60 Hz
- Safe — No flames, no fumes, no smell.
- Stainless Steel — Resistant to scratches or other surface damage.
- Withstands high levels of heat without damage.
- Resistant to rust, corrosions and interactions with acidic foods.
- Food safe and easy to clean.
- Stainless Steel construction — Provides durability and strength.
- Temperature Controller — Heats chafing dishes quicker than canned heat.
- Timer — Heat continuously for 6 hours non-stop. Most competitors must be reset at 2 hours.
- Ventilation — Minimal requirements for ventilation.
